## Revenue Growth Significantly Exceeds Guidance

BEIJING, May 21, 2015 /PRNewswire/ -- Jumei International Holding Limited (NYSE: JMEI) ("Jumei" or the "Company"), China's leading online retailer of beauty products, today announced its unaudited financial results for the first quarter ended March 31, 2015. The Company will host a conference call to discuss the results at 8:30 AM U.S. Eastern Daylight Time on May 22, 2015 (8:30 PM China time on the same day).

**First Quarter 2015 Highlights**

- Net revenues increased by 61.8% year-over-year to US\$250.6 million.
- Total net GMV<sup>[1]</sup> increased by 20.3% year-over-year to US\$326.5 million, primarily due to a 14.3% increase in the number of active customers<sup>[2]</sup> and an 18.4% increase in total orders<sup>[3]</sup>.
- Gross profit as a percentage of net revenues decreased to 31.4% from 44.1% in the same period of 2014. Gross profit as a percentage of total net GMV decreased slightly to 24.1% from 25.2% in the same period of 2014. The decrease was primarily due to the Company's shift in strategy from beauty product marketplace sales to merchandise sales that started in September 2014.
- Net income attributable to Jumei's ordinary shareholders increased by 49.5% to US\$15.7 million from US\$10.5 million in the same period of 2014. Net margin attributable to Jumei's ordinary shareholders was 6.3%, compared with 6.8% in the same period of 2014.
- Non-GAAP net income attributable to Jumei's ordinary shareholders<sup>[4]</sup> was US\$17.2 million, an increase of 44.5% from the same period of 2014. Non-GAAP net margin attributable to Jumei's ordinary shareholders<sup>[4]</sup> was 6.9%, compared with 7.7% in the same period of 2014.

[1] "Net GMV" means the sum of (i) net revenues generated from merchandise sales, and (ii) net revenues generated from marketplace services plus corresponding payables to third-party merchants;

[2] "Active customer" means a customer that made at least one purchase during a specified period;

[3] "Total orders" means the total number of orders placed during a period, excluding rejected or returned orders;

[4] "Non-GAAP net income attributable to Jumei's ordinary shareholders" is a non-GAAP financial measure defined as net income attributable to Jumei's ordinary shareholders excluding share-based compensation expenses. "Non-GAAP net margin attributable to Jumei's ordinary shareholders" is a non-GAAP financial measure defined as Non-GAAP net income attributable to Jumei's ordinary shareholders as a percentage of total net revenues. See "Use of Non-GAAP Financial Measures" and "Unaudited Reconciliation of GAAP and Non-GAAP Results".

Mr. Leo Chen, founder and CEO of Jumei, stated, "We are pleased to announce stronger-than-expected growth for the first quarter of 2015. We successfully completed our transition for beauty products from marketplace sales to merchandise sales at the end of 2014, and our new business initiative – Jumei Global, took off early this year and experienced high growth in terms of sales volume. Jumei is currently one of the leading players in cross-border e-commerce in China. We expanded into cross-border baby and maternity category in mid-April, 2015 and quickly achieved market leading position in this new category in China. Our target for 2015 is focused on top line growth and expansion into other cross-border categories as we look to expand our customer base and significantly grow our order numbers. We are confident that we can achieve our quarterly and yearly sales target for 2015."

## Unaudited First Quarter 2015 Financial Results

**Total net revenues** were US\$250.6 million, an increase of 61.8% from US\$154.9 million in the first quarter of 2014. The increase was primarily attributable to the shift from beauty product marketplace sales to merchandise sales, as well as the increase in the number of active customers and total orders. The number of active customers increased by 14.3% to approximately 5.6 million from approximately 4.9 million in the same period of 2014. The number of total orders increased by 18.4% to approximately 13.5 million from approximately 11.4 million in the same period of 2014.

**Gross profit** was US\$78.7 million, an increase of 15.2% from US\$68.3 million in the first quarter of 2014. Gross profit as a percentage of net revenues decreased to 31.4% from 44.1% in the same period of 2014. The decrease was primarily due to the shift from beauty product marketplace sales to merchandise sales. Gross profit as a percentage of net GMV decreased slightly to 24.1% from 25.2% in the same period of 2014. Gross profit from merchandise sales as a percentage of net GMV of merchandise sales decreased to 28.6% from 33.4% in the same period of 2014. The decrease was primarily due to the change of product mix.

**Total operating expenses** were US\$64.7 million, an increase of 26.4% from US\$51.2 million in the first quarter of 2014. Operating expenses as a percentage of total net GMV increased to 19.8% from 18.9% in the same period of 2014.

- **Fulfillment expenses** were US\$28.8 million, an increase of 44.7% from US\$19.9 million in the same period of 2014. Fulfillment expenses as a percentage of total net GMV increased to 8.8% from 7.3% in the same period of 2014. The increase was primarily due to higher fulfillment expenses of Jumei Global.
- **Marketing expenses** were US\$23.8 million, an increase of 1.7% from US\$23.4 million in the same period of 2014. Marketing expenses as a percentage of total net GMV decreased to 7.3% from 8.6% in the same period of 2014. The decrease was primarily the result of a series of efficient and effective marketing campaigns and brand promotion activities that were launched during the quarter in an effort to grow the Company's customer base.
- **Technology and content expenses** were US\$6.7 million, an increase of 55.8% from US\$4.3 million in the same period of 2014. Technology and content expenses as a percentage of total net GMV increased to 2.1% from 1.6% in the same period of 2014. The increase reflects Jumei's continuous investments in its information technology platform and the Company's commitment to attract top research and development talent in order to provide better technology-enabled services to both consumers and merchants.
- **General and administrative expenses** were US\$5.3 million, an increase of 43.2% from US\$3.7 million in the same period of 2014. General and administrative expenses as a percentage of total net GMV increased to 1.6% from 1.4% in the same period of 2014. The increase was mainly due to the increase in general and administrative staff headcount.

**Income from operations** was US\$14.1 million, a decrease from US\$17.1 million in the same period of 2014.

**Non-GAAP income from operations**, which excludes US\$1.5 million in share-based compensation expenses, was US\$15.6 million, a decrease of 15.7% from US\$18.5 million in the same period of 2014.

**Net income attributable to Jumei's ordinary shareholders** was US\$15.7 million, compared with US\$10.5 million in the same period of 2014, primarily due to the fact that there is no preferred shares accretion this quarter as preferred shares have been converted into ordinary shares at the completion of our initial public offering in May 2014. Net margin attributable to Jumei's ordinary shareholders decreased slightly to 6.3% from 6.8% in the same period of 2014. Net income per basic and diluted ADS were US\$0.11 and US\$0.10, respectively, compared with US\$0.16 and US\$0.12, respectively, for the same period of 2014.

**Non-GAAP net income attributable to Jumei's ordinary shareholders**, which excludes share-based compensation expenses, was US\$17.2 million, an increase of 44.5% from US\$11.9 million in the same period of 2014. Non-GAAP net margin attributable to Jumei's ordinary shareholders decreased to 6.9% from 7.7% in the same period of 2014. Non-GAAP net income per basic and diluted ADS were US\$0.12 and US\$0.11, respectively, compared with US\$0.18 and US\$0.14, respectively, in the same period of 2014.

---

## Balance Sheet

As of March 31, 2015, the Company had cash and cash equivalents of US\$156.7 million, and short-term investments of US\$423.7 million.

## Business Outlook

For the second quarter of 2015, the Company expects total net revenues to be between US\$270.1 million and US\$277.8 million, representing a year-over-year growth rate of approximately 75% to 80%.

These forecasts reflect the Company's current and preliminary view, which is subject to change.

## Use of Non-GAAP Financial Measures

To supplement the consolidated financial statements presented in accordance with the United States Generally Accepted Accounting Principles ("GAAP"), Jumei uses non-GAAP income from operations, non-GAAP net income attributable to Jumei's ordinary shareholders, non-GAAP net margin attributable to Jumei's ordinary shareholders and non-GAAP net income per ADS attributable to Jumei's ordinary shareholders, by excluding share-based compensation expenses from operating profit and net income attributable to the Company's shareholders, respectively. The Company believes these non-GAAP financial measures are important to help investors understand Jumei's operating and financial performance, compare business trends among different reporting periods on a consistent basis and assess Jumei's core operating results, as they exclude certain expenses that are not expected to result in cash payments. The use of the above non-GAAP financial measures has certain limitations. Share-based compensation expenses have been and will continue to be incurred in the future and are not reflected in the presentation of the non-GAAP financial measures, but should be considered in the overall evaluation of Jumei's results. The Company compensates for these limitations by providing the relevant disclosure of its share-based compensation expenses in the reconciliations to the most directly comparable GAAP financial measures, which should be considered when evaluating Jumei's performance. These non-GAAP financial measures should be considered in addition to financial measures prepared in accordance with GAAP, but should not be considered a substitute for, or superior to, financial measures prepared in accordance with GAAP. Reconciliation of each of these non-GAAP financial measures to the most directly comparable GAAP financial measure is set forth at the end of this release.
