Mr. Leo Chen, founder and CEO of Jumei, commented, "We are thrilled to report another strong quarter of growth with our top-line increasing almost 100%. This very strong growth was driven by Jumei Global during what is typically a seasonally light quarter. We continue to strengthen our position as a leading import cross-border ecommerce platform in China – a milestone we achieved last quarter. We are pleased to see both active customers and number of orders grow rapidly while maintaining a high repeat purchase rate. Since transitioning into cross border ecommerce during the third quarter of 2014, our customer purchase frequency has grown significantly, increasing 34% from the third quarter 2014 to the second quarter of 2015, due primarily to our diverse global product offerings and expansion into other women's categories such as baby and maternity and health and wellness. We are confident that our continued investment in category expansion will enhance the customer experience, increase user stickiness and strengthen loyalty to our platform."

Mr. Chen continued "We recently announced a strategic investment in BabyTree, the largest online parenting community in China and the largest globally as ranked by traffic volume, with daily active users ("DAU") exceeding 10 million. By integrating Jumei's supply chain and logistics expertise in cross border ecommerce with BabyTree's large and growing user base, we believe we will be able to leverage the significant cross-selling opportunities across all Jumei categories to become the dominant female-focused ecommerce platform in China."

#### Use of Non-GAAP Financial Measures

To supplement the consolidated financial statements presented in accordance with the United States Generally Accepted Accounting Principles ("GAAP"), Jumei uses non-GAAP income from operations, non-GAAP net income attributable to Jumei's ordinary shareholders, non-GAAP net margin attributable to Jumei's ordinary shareholders and non-GAAP net income per ADS attributable to Jumei's ordinary shareholders, by excluding share-based compensation expenses from operating profit and net income attributable to the Company's shareholders, respectively. The Company believes these non-GAAP financial measures are important to help investors understand Jumei's operating and financial performance, compare business trends among different reporting periods on a consistent basis and assess Jumei's core operating results. as they exclude certain expenses that are not expected to result in cash payments. The use of the above non-GAAP financial measures has certain limitations. Share-based compensation expenses have been and will continue to be incurred in the future and are not reflected in the presentation of the non-GAAP financial measures, but should be considered in the overall evaluation of Jumei's results. The Company compensates for these limitations by providing the relevant disclosure of its share-based compensation expenses in the reconciliations to the most directly comparable GAAP financial measures, which should be considered when evaluating Jumei's performance. These non-GAAP financial measures should be considered in addition to financial measures prepared in accordance with GAAP, but should not be considered a substitute for, or superior to, financial measures prepared in accordance with GAAP. Reconciliation of each of these non-GAAP financial measures to the most directly comparable GAAP financial measure is set forth at the end of this release.
